EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Bradley N. Ruben on March 11, 2005.

The application has been amended as follows:

In the abstract, lines 1-6 have been deleted and replaced by -- The present invention is a high-frequency current--

2. The following is an examiner's statement of reasons for allowance:

The closest prior art of record fails to teach or suggest the recited high-frequency current suppression body. Independent claim 1 identifies the uniquely distinct features of a substrate that include "a magnetic thin film" in combination with "magnetic loss material having an M-X-Y composition, where M is at least one of Fe, Co, and Ni, X is at least one element other than M or Y, and Y is at least one F, N and O, said M component in said magnetic loss material existing in granular form dispersed in the matrix of said X-Y compound" and "said X component in said magnetic loss material consisting of at least one of C, B, Si, Al, Mg, Ti, Zn, Hf, Sr, Nb, Ta and rare earth elements." The closest prior art of record, WO 00/19792, discloses an electromagnetic wave shield, which either singularly or in combination, fail to anticipate or render obvious the above limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patricia L. Nordmeyer whose telephone number is (571) 272-1496. The examiner can normally be reached on Mon.-Thurs. from 7:00-4:30 & alternate Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Harold Y. Pyon can be reached on (571) 272-1498. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
